# Pacific Symposium on Nature-based Coastal Solutions

The Pacific Chapter of the Nature-based Coastal Solutions (NbCS) Community of Practice is excited to present its second in-person event, the 'Pacific Symposium on Nature-based Coastal Solutions'. This three-day symposium (September 8-10, 2026) in Vancouver, BC, Canada aims to unite professionals, researchers, and advocates from diverse backgrounds to foster collaboration, learning, and advocacy for NbCS in the Pacific Region.

## Collaborate

Create a platform for participants to meet, network, and establish connections within the Pacific community committed to nature-based coastal solutions.

## Learn

Facilitate knowledge exchange through presentations, workshops, and field visits, covering key theme areas.

## Advocate

Empower participants to become advocates for the implementation of nature-based solutions by exploring best practices, lesson learned, and innovative approaches.

## Benefits of Partnering and Sponsoring

- Be recognized as a supporter of nature-based solutions to the complex challenges facing the Pacific Coast today
- Raise brand awareness with acknowledgment on symposium materials including marketing materials, program, and signage
- Reach new audiences with our multidisciplinary symposium attendees
- Be part of collaborative discussions advancing the best practices for shoreline management
- Enable participation from a wide range of professionals at multiple levels by bringing down the overall costs for the symposium

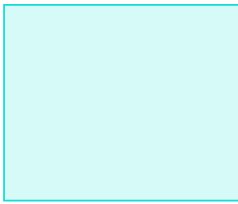

The Nature-based Coastal Solutions (NbCS) Community of Practice (CoP) is part of the Coastal Zone Canada Association (CZCA). The Coastal Zone Canada Association is a nationally incorporated non-profit society of coastal zone management professionals committed to promoting Integrated Coastal Zone Management practices in Canada and abroad.
